Training programs to get you a high-quality job

Boston Medical Center is hosting a virtual information session so you can learn about two training programs that guarantee jobs upon completion.

Date Wednesday, January 31st, 2024

Time 5:30 - 6:30 PM

REGISTER HERE!

Previously involved in the criminal justice system? Want to get paid to learn new skills and start a long-term career?

What is the Boston Civilian Climate Corps?

The program is a 16 week paid workforce training program designed to support people who had been involved in the criminal justice system in entering the green construction and energy efficiency sectors. BlocPower is training and supporting individuals with skills and knowledge to become competitively employed for the 21st century green construction field, with a focus on building electrification and the supporting trades.

Program participants receive 10 weeks of paid classroom training followed by 6 weeks of paid on-the-job experience at \$20 per hour.
